Response to Amendment

1. Applicant's amendment received on February 9 2007 in which claims 1, 9, and 17-31 were amended, has been fully considered and entered but the arguments are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sheridan (US Patent no. 5760917) in view of Stewart et al. (US Patent no. 6389460).

Regarding claims 1, 9, 17, 25 and 31, Sheridan discloses the same method for location-based image sharing (See Abstract), comprising defining a sharing rule associated with the one or more recipients with whom images should be shared based on location-identifying information with the images (See col. 4, lines 51-67 and col. 5, lines 1-18), and applying location identifying information associated with an image to the sharing rule to determine the one or more recipients with which the image should be shared (See Sheridan col. 5, lines 10-18, col. 6, lines 13-32, and lines 56-63).

It is noted that while Sheridan applies location identifying information as previously shown in the last office action (See Sheridan col. 5, lines 10-18, col. 6, lines 13-32, and lines 56-63), it is silent about the location identifying information being associated with a physical location of the image subject as newly claimed.

However, Stewart discloses location identifying information being associated with a physical location of the image subject (See Stewart col. 5, lines 11-31).

Therefore, it is considered obvious that one skilled in the art at the time of the invention would recognize the advantage of modifying Sheridan's step of identifying information by incorporating Stewart's teachings wherein the location identifying information being associated with a physical location of the image subject. The motivation for performing such a modification in Sheridan is to efficiently deliver image to a user as taught by Stewart (See Stewart col. 3, lines 55-58 and col. 4, lines 6-14).

As per claims 2, 4, 6, 10, 14, 18, 22, 29, and 35 most of the limitations of these claims have been noted in the above rejection of claims. In addition, Sheridan further makes the image automatically available to the determined recipients and automatically sends the digital image once the requested admission is granted (See Sheridan figs. 2-3, and col. 4, lines 51-67 and col. 5, lines 1-41).

As per claims 5, 7, 12-13, 15, 21, 23, 28, 30, 34, and 36, Sheridan further provides identifying information comprising latitude and longitude coordinates, proximity identifying information, and a set of location-identifying information (See col. 6, lines 60-

66, col. 8, lines 58-67). The applicant should note that the mailing address referred to in Sheridan col. 8, lines 66-67 will provide the proximity information as well as the latitude and longitude coordinates.

As per claim 33, 20, and 27 Sheridan further converts the location identifying-information into location data using a location database (See col. 8, lines 25-34 and lines 58-67).

As per claims 8, 16, 24 and 37, most of the limitations of these claims have been noted in the above rejection of claims 1 and 31. In addition, Sheridan further defines sharing rule wherein images are shared on a buddy list (See Sheridan's buddy list in fig. 2, and col. 4, lines 51-67 and col. 5, lines 1-18).

As per claim 3, 11, 19, 26 and 32, most of the limitations of these claims have been noted in the above rejection of claims 1, 11, 25. In addition, Sheridan further discloses e-mailing a copy of the image or sending a Web link to the recipients (See Sheridan's col. 5, lines 19-42).

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2621

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
